

Let's Help Brooks-Howell Recover From Hurricane Helene!

Support Hurricane Recovery at
Brooks-Howell Home Today

Hurricane Helene enormously impacted every aspect of life and care at Brooks-Howell. **Recovery is ongoing and expensive.** From extra fuel for the generator to temporary water tanks as a partial replacement for lack of city water supply, to expanded use of disposable supplies for meals and for healthcare.

On top of that, **can you imagine how many more hours of staff time continues to be required** to take care of patients as they continue to work without running, potable water?

Now imagine how your financial gift will not only ease the financial burden but also **hearten the staff and residents** who will feel supported and cared for through your generosity!

Please make a gift today and encourage your congregation and your UWF unit to give as well.

For more information on the impact the storm has had on B-H residents and staff go to www.Brooks-Howell.org/home.

Once you make your gift—or if you already have—please take just another minute to log (anonymously if you wish) the gift you made so that we can share how much of an impact we all made together. **Then share the need** with your congregation, your UWF unit, and others who would want to help. **THANK YOU!**
